

5010 AUDIOPHONE

Realized in stainless steel, is a game of particularly innovative design. The shockproof flooring allows to join the couple of audiophones in a visible way (the color of the receiver connects them to couples according to those connected and this easily and visually allows to use the equipments).

Approximate hoppers height: cm 120, diam. audiophone cm 13 e tube diam. 3 cm
Undergrounded tube internal diam. cm 3.
